I search for meaning and signification. How is an action — wether performed by an individual or a collective — a signifier of meaning, situated in it's particular context? I seek answers to this question, and am more than happy to do so computationally

Areas of Interest

- Qualitative and quantitative research design.
- · Social interactions, and their signifiers of meaning.
- Computer-assisted social research, in particular Natural Language Processing and Machine Learning.

Experience

2012-ongoing

2012

Skovbo, Sødisbakke Social Worker Mariager

I work in an assisted living facility for adults with autism spectrum disorders and severe mental impairment.

Education

Educational Sociology, Master of Arts 2020

Arbus University, Arhus

Had a critical look at the state of Danish dis/ability policies. In addition, i explored computational sociology, and R and the tidyverse.

Social Education, Bachelor of Arts University College Nordjylland, Aalborg of the practitioner.

Specialized in citizens with disability, with a particular focus on the role
